CHINESE HEMP-A New Variety-Extraordimary Yield .- Sometime last winter we heard of a new kind of hemp which had been grown for a year or two in Woodford county, Ky., but of its history we had learned but little. While attending the late fair at Lexington we saw some stalks of this hemp on exhibition which were of such extraordinary character that we determined to visit that portion of Woodford where it was grown, in order to learn more of it, by the chancery court. which we did, at the close of the fair. It was own upon the farm of W. L. Vance, Esq., gard to it.

"Some four years since," says Mr. V., "I read in the National Intelligencer a letter written from China, which, among other details, gave an account of a superior kind of hemp, indigenous to that country. The writer represented it in such commendatory terms as compared with the hemp grown in the United States that I determined, if possible, to procure some of the seed for experiment. A gentleman from found herself in a condition in which ladies France, to whom I mentioned the subject, undertook to procure some of the seed (I think from the bureau attached to the 'Jardin des plantes' at Paris). He sent me less than half a thimbleful, the result from which is a hemp of such superior characteristics as will I think supplant the production of the common sort, Her health has been very bad, being frequently and in a few years, when generally cultivated, subjected to the most intense pain, and, having will doubtless advance the price of the raw ar-The particulars of this new hemp are-1st. The crop is so thick and stands so high that there is not room to spread and cure it on the surface on which it grew, and large quantities had been carried off to dry.

We saw two fields of the common hemp on the same farm which was sown four weeks before the Chinese hemp; the hemp in these fields had been cut a month, and is now cured and in the stack. At our suggestion a committee of practical hemp-growers has been appointed, who will measure off and take charge of an age acre of this hemp, superintend the rotting and dressing, and report to us the quantity of dressed fiber. We feel a great interest in this matter, believing that the introduction of this variety of hemp into Kentucky will add millions to its wealth. Mr. Vance informs us that he will be engaged in cutting this coop until the 25th inst., and we would advise every

hemp-grower, who can do so, to visit the farm and see it.

We have obtained a bundle of the green hemp, which will be sent to the exhibition of the Southwestern Agricultural and Mechanical Association. The length of the stems varies from 10 to 14 feet, and they do not exceed threeeighths to five-eighths of an inch in diameter a the butt. Mr. V. has also promised to place on exhibition at our fair a quantity of the waterrotted dressed fiber.

AN OUTRAGEOUS CASE. - A case came up for examination in the city court yesterday morning, which revealed a series of persecutions upon a woman that is rarely met with. A German named Felick had his sister before the court as a lunatic. Felick stated under oath that she had been residing with him for two years. She had shown symptoms of insanity,

and of late had become so violent as to endanger the lives of his wife and children. On crossexamination, he stated that she was married to Jacob Volmer three years ago; but after living with him for five months they separated by mutual agreement. On further examination he admitted that the matter had been adjudicated

On re-examination of Felick, it came to light that he had compromised the matter with Volm whom we have received a statement in remer by receiving from the latter \$250, which he alleged his sister owed him for board, clothing, &c.

A conversation with Mary proved that she was not a lunatic; but that the whole matter was a conspiracy on the part of her brother to secure to himself the money received from Vollmer, and to get the State to support her. She stated that she was married to Vollmer three years ago, and in five months from that time usually are who love their lords. Vollmer treated her so bad that she had to leave him. The child died. Her father was then alive and she occasionally received a part of the alimony. Since his death she has been living with her brother; but has not received a solitary cent. no medical adviser, she acknowledged that mammoth vegetables of every descri when thus afflicted she frequently gave vent to treated her rudely, which she had resented, but was then taken to task by her brother.

Mr. Elliott, the city attorney, has taken the case in hand to bring it to the attention of the chancellor, and Mary, in the meantime, has been

We think the circumstantial evidence is very strong that he himself, in his youth, must have been taught by a nigger, and, if so, he was but paying at Hanover a debt of gratitude to the race.

HORTICULTURAL EXHIBITION LAST NIGHT. RIVER AND STEAMBOAT MATTERS. The exhibition of the Horticultural Society closed last night. The Half was crowded When we left, Mr. Spencer was knocking down fruits and flowers at prices which showed a proper appreciation of fine fruit and beautiful floral productions. The exhibition has been very successful. Never before was there such a collection of premium productions of the orchard, the garden, and the field. The spirit manifesied by the visitors to this exhibition should encourage the members of the society to continue their efforts with unremitted zeal to promote improvement and rivalry in every branch of horticulture and agriculture. We saw upon the tables a large number of fruits, flowers, and vegetables, which we would like to notice at length. Among the most prominent we recollect were the following:

Flowers .- We noticed one exquisite piece of floral painting by Miss Anderson; among the hand boquets, those by Miss J. M. Holt and Henry Nantz were very beautiful; a dish of flowers, garnished with the seed-pods of the magnolia-tripitella, prepared by Mrs. Austin Peay, was especially deserving of attention. There was also a very tastefully arranged dish of flowers by Mrs. Vanwinkle. A floral basket by J. L. Kalfus attracted much attention for its charming simplicity and tastefulness. A complete bijon of a moss cottage, representing Flora's home, by C. C. Carey, was an attractive feature. Henry Nantz had deposited two floral devices which were really beautiful, one a temple and the other a moss pyramid inscribed to the memory of the eminent writer upon horticulture and rustic architecture. One of the most beautiful and attractive features of this portion of the exhibition was a vase of wax flowers, most exquisitely and artistically executed by Mr. L. Woodbury Fiske, of the Merchants' Exchange.

Fruits .- The white Doyenne, Seekle, and Bartlett pears, and the Columbia, Whitehead's New Red Heath, and Davis' clear white seedling peaches, contributed by Col. Lawrence Young, were very beautiful. The peculiar feature about Col. Young's fruit is its exquisitely delicate blush. He seems to have some art unknown to others, by which to use the rays of the sun as a painter's brush to touch up his fruit wherever a lively hue is needed to complete its beauty. Among the peaches, the specimens of Grand Admirabile, from J. F. Paine; the White Heath, from F. Pound; and some flesh colored peaches, from Wesley Sparks: and the White Heath, White Favorite, Columbia, and Redmond's cling, from A. Peter; and the Lagrange, from W. C. Brooks, were remarkably

Among the apples, the Bell-Flower, from J. Watstien and C. C. Carey, and the Gloria Mundi, from J. Johnson, were very large. We saw several specimens of Gloria Mundi quite fifteen inches in circumference, but we do not think they can outweigh the one sent us a few days ago by Mr. Henry, of Meade county.

Vegetables .- One of the most remarkable things in the whole exhibition was a very ingeniously contrived vegetable coat of arms, composed of forty-six varieties of vegetables, by Mrs. Geo. Hancock. The singular and multifarious application of vegetables to the composition of columns and garlands and flowers and wreaths and baskets, attracted universal attention. We cannot undertake to specify the which the tables were loaded. There were some which could not escape observation, such as the cabbages, beets, and sweet potatoes of Mr. Jno. Thatcher; the beets and carots of Capt. Aaron Pennington; the neshanocs and sweet potatoes of Mr. T. S. Robards; and a large display of almost every imaginable variety, by Frank Beckman, the gardener of Mr. Geo. E. Heinsohn; and the pumpkins, glass melons, and peas of Mr. Thos. Rucker.

Grapes .- There were some very fine specimens of grapes, among which were Catawba from Geo. E. Heinsohn and Arthur Peter; and also Miller's seedling and Edinburg, from Ar-

There has been much excitement in a central locality of the city since Tuesday morning, in conseque ice of the sudden disappearance of a young man who was about entering the matrimonial state. All the preliminaries were arranged, the bridegroom was at the residence of his intended, when he was suddenly summoned by his father, who is a wealthy resident of this county, and by his brother-in-law, who is a resident of this city, and all left in a carriage, since which nothing has been heard of him. The young man is 24 years of age, and carries on a business in this city. We understand the young lady has been taken very ill

AN AUTOBIOGRAPHY.

In one duodecime volume, neatly bound in cloth. Price \$1.

The most intellectual of living writers. It required the genius of the author to have grasped, with such extraordinary force, the scenes and circumstances through which her story moves. No other writer could have thrown as strong an individual life into place and locality. Her passionate fearless nature, her wild warm heart, are transfused into the magic world she has created, with such an intense earnestness, which no one can enter without yielding the irresitible fascination of her pewers. The book is a thrilling transcript of undoubted experience. The oharacters introduced into her work are fiesh and blood realities. These graphic life revelations have created a profound literary sensation not equaled by any other production since the appearance of the contractal enters.

MEETING OF THE REVISION ASSOCIATION ON THE DEATH OF DR. SPENCER H. CONE, PRESIDENT OF THE AMERICAN BIBLE UNION.

BIBLE UNION.

BIBLE REVISION ROOMS.

Louisville, Seytember 15.

The Board of Managers of the Bible Revision Association having met at their rooms pursuant to adjournment, the Rev. W. W. Everts, Dr. T. S. Bell, and Cha. Duffield having been previously appointed a committee to prepare a suitable preamble and resolutions relative to the late Spencer H. Cone, D. D., president of the American Bible Union, they submitted the following, viz:

The officers and managers of the Bible Revision Association have heard of the death of Dr. Spencer H. Cone, of the following, viz:

The officers and managers of the Bible Revision Association have heard of the death of Dr. Spencer H. Cone, or the following, viz:

The officers and managers of the Bible Revision Association for the American Bible Union, with the profundest grief. The bereavement is one well calculated to following viz:

The officers and managers of the Bible Revision for Dr. Cone has so thorough into word in every breast devoted to the sacred cause of Bible revision, for Dr. Cone has so thorough into word in the progress of this great movement, that during his life he seemed to be an essential portion of it.

Services on earth, it has pleased to during his life he seemed to be an essential portion of it.

It is profitable, occasionally, our urn from the scenes of busy life and contemplate the deeds of the noble, the truthful, and the faitful who have fallen in the midst of their beneficents labors. The useful exercise of ontemplations of this kind is to be found in the cliffs and coreer of such men as the late Dr. Spencer H. Cone, of the city of New York. Nature bestowed upon him an exalted national to the profit of the dead of the city of New York. Nature bestowed upon him an exalted national impressive eloquance and a character of spotless integrity; and thus armed for the battle of life, he might have succassfully sought holor in any of the fields of

ly for the holy enterprise that was, for the future, to engage all his powers and to panoply the movement with invulnerable armor.

It is, indeed, fortunate for the great truths of revision that its early efforts commanded the opposition of men of talents, influence, and learning. Their strenuous exertions were devoted to attempt to strangle the cause in its inflancy, and the world thus learned all that could, with any show of reason, be urged against this noble work. All this storm of power, all the array of talent and misguided learning was successfully met by Dr. Cone and his coadjuors, and, to refer to nothing else, their unrivalled answer to the Amity-street Baptist Church has proved a pillar of light to the friends of revision, which has not dimmed nor can it be darkened. The whole history of that celebrated correspondence is a perfect illustration of the sontiments of the American poet:

"Truth crushed to earth will rise again,
The eternal years of God are hers;
But error, wounded writhes in pain
And dies amidst its worshippers."

Dr. Cone was sixty-five years of age when he determined upon his course toward the cause of revision, and, from his engrance upon the work to the closing hours of his life, he zeal-cously and usefully devoted his best abilities to the furtherance and prosperity of the cause. His labors were invaluable, and the remembrance of them should be a living light to all of us who are still able to labor in this field of usefulness. His death is a grievous affliction to us, but it was tempered with mercy to this cause. He was loaned to us long enough to remove many of the most formidable obstacles from our paths. Under the guiding powers of Dr. Cone, this work of revision has so prospered, it has so largely commanded the approbation, affection, the zealous and efficient co-operation of such a host of friends, and has won such a tenacious hold upon the minds of firends, and has won such a tenacious hold upon the minds of many of the faithful in its interests. To all his Christian life is strictly applicable that line of Terrence, which, when first uttered to a Roman audience, seemed to possess it with a magnetic influence, and has lived in the memory of men:

We carnestly rejoice that it has been our happy fortune to cooperate with Dr. Cone in the cause of revision, and we are

Bible Union from his labors, we adopt the following resolutions:

Resolved, That we affectionately condole with the American
Bible Union in the death of Dr. Cone, and with all the friends,
everywhere, of the truthful revision of the Holy Scriptures,
for the English language, and of the translation of the original language of the Holy Sprirt into all languages, by the
words or terms of those languages that most clearly and fully
convey the ideas of the original revelation.

Resolved, That we not only gratefully remember the services of Dr. Cone in this cause, but that we will faithfully
endeavor to crown with success that godly object which was
the aim of his labors—the revision of the Holy Scriptures, so
that they shall conform as perfectly as possible to that 'form of
doctrine which was delivered' to the Church at Rome, and to
the 'form of sound words which was given to Timothy' by
the Apostle Paul.

Resolved, That in view of the loss the cause of revision has
sustained in the death of President Cone, we earnestly invoke
the Holy Sprirt to renew their diligence in promoting the
work, so that accomplishment may be hastened, so far as
that hastening shall not jeopard any part of the perfect integrity of the work.

Resolved, That insamuch as Dr. Cone showed his full recog-

Resolved, That inasmuch as Dr. Cone showed his full recognition, while among us, of the necessity of devotion to the great work of revision, we call upon all who honor and revere his memory to show their affection and veneration for him by guaranteeing the presperity of the cause by a realous, efficient, and persevering cooperation with its laborers.

THE SPIRITS ON A SPREE .- It must be vastly comfortable to the sober, sedate souls who never smile in this world, and who think they would be damned if they were to dance, to learn that spirits in the other world are wild, roystering, frolicsome, obstreperous fellows, who dance, sing, and make merry. The latest account that has come from the spirit-world lets us into the secret that these invisible people are given to ungodly glee, such as dancing jigs, polkas, and fandangoes-that they wrestle, box, and play the devil generally. We confess to a fancy for a jig with John Bunyan; it would be, as the ladies say, "delicious."

It appears that a few days ago three hundred of the believers in Spiritualism had a grand frolic on Long Island. This interesting party, made up of both sexes, were transported on three steamboats to Flushing, where, after receiving the material consolations and comforts of a good dinner and trimmings, they yielded themselves to spiritual influences and Spanish dances; they had a good time of it. We are told that the spirits were on hand in great numbers; for they are always ready to come when the faithful call them. Their method of manifesting their presence was not always in good taste: but then it is useless to dispute concerning the taste of spirits. Some of these spirits exhibited pugnacious propensities, and there were several pretty severe rough-and-tumble contests between spiritual and material combatants. One young man is said to have resisted bravely; but at length the spirit suddenly tripped him up, and he was vanquished. In one instance these spirits were so ungallant as to attack a female; but, owing probably to the interference of the gentlemen, they were compelled to desist. Other spirits, of milder and merrier proclivities, incited some of the company to dance; and jigs, rigadoons, fandangoes, and spiritual polkas were the order of the day. Those who could not dance contented themselves with contortions and intricate twistifications of body and features, and the whole scene must have somewhat resembled a Camanche pow-wow.

After these things came the higher spiritual manifestations. Speeches were made on spiritual subjects by two or three learned professors, and by Mr. Smith, the man of razor-strop notoriety, who, having sold all his strops and not being able to announce that he has "one more left," has taken to spiritualism, and turned medium. A very "nice young man," by the name of Ambler, somewhat famous in spiritual circles, then recited a poem under spiritual influence, the chief merits of which are said by the critic of the N. Y. Times to have been sound and gesticulation. After the poem, a circle was formed, composed of nearly seventy persons, and the "developed" mediums took their position in-

We are not informed of the nativities of the spirits that were evoked on this highly interesting occasion, but a friend, on reading the account, said that it is not improbable that some portion of them were Jamaica spirits. Be this as it may, they were very funny spirits. One of those aerial animals, it seems, had written an epistle to a Mr. Smith, one of the highly developed mediums. The letter, being written on air instead of paper, was difficult to read. Several of the mediums essayed to read it, but were unable to do so. At length the best developed medium in this country, Mr. Randolph, achieved the airy document. It was from a person in the other world who had done a good many wicked things while in this, and warned those still here to behave themselves. The reading of this letter so exhausted Mr. Randolph that he was fain to leave the circle and lie down on the ground and recover his strength.

This is a progressive age, and we know no good reason why there should not be progress in spiritualism. It is now made to appear that spirits are scholars; they can read, write, and cypher, and we are prepared to learn that they have embarked in a general system of internal improvements. Railroads, canals, and telegraphs are as fit facilities in the way of progress as reading and writing, and those who can dance can dig or can run, and those that can run can ride, and those that can ride need something to ride upon-ergo, the spirits need the use of railroads, and we suppose they can and will build them

BOURBON COUNTY AGRICULTURAL FAIR .-The twentieth exhibition of the Bourbon Agricultural Society will be opened at Paris on Tuesday, the 25th inst., and will continue four days. As this is the oldest agricultural society in Kentucky, we anticipate a grand display of cattle, horses, sheep, hogs, and manufactured goods of every kind. Of course a large number of people will be there. Our Bourbon friends offer a very full and liberal list of premiums.

We are requested to state that the Louisville and Frankfort, Frankfort and Lexington, and the Lexington and Paris railroad companies have offered to take all stock and articles for exhibition too and from the fair free of charge. As this is the season of fairs, we hope to see a great gathering at Paris.

A REMARKABLE CHAMBERMAID .- A notice of a recent steamboat explosion ends as follows:

"The captain swam ashore. So did the chamermaid. She was insured for \$15,000, and

Donald McKay, the Boston ship-builder, having been nominated the other day by some of the political parties in Boston as a delegate to something, requested the Boston Atlas to say "that he never takes interest enough in politics to go with any party. He believes the country is still safe, and therefore he declines being a delegate to any convention."

THE MIGRATION OF BIRDS .- Last night the air was eloquent with the music of migratory birds. It was too dark to see them, but away up in mid-air, from dark to the wee hours of morn, we heard the notes of these feathered travelers, from the scream of the curlew to the quack of the duck, breaking the dull and solemn stillness of the clouded night, and telling that far above our heads were vast multitudes of feathered aristocrats flying from the frosts of the frigid north to find for the coming winter a more genial abode in the sunny south. Whenever these aquatics leave their hyperborean home and come down among us, it may be known that frosts are about; they never leave until after the occurrence of frost where they come from. So it may be considered certain that we shall have cold weather soon. We advise our young friends who delight in shooting to rub up their rusty guns, buy powder and shot, and be ready, for in the phrase of the almanacs when alluding to the weather, pigeons may be "expected about this time."

A VALUABLE INVENTION BY A COLORED MAN. The Philadelphia Sun says that Aaron Roberts, a colored man in that city, has invented what we think cannot fail to prove a most valuable aid to the Fire Department. It is constructed on the principle of a telescope, occupying a very small space when closed, but capable of being extended to a height of some sixty feet, by means of concealed clogs. Above this is a branch pipe, made flexible, and worked in any direction by chains reaching to the ground. The machine can be run into a narrow alley, or any confined space, and, by attaching a hose to a fire-plug, the water will be forced to the top, and thence directed at the pleasure of the operator. Complete safety is thus afforded to the firemen, and instant application may be made to any part of a burning building.

## NEWS ITEMS.

A merchant, by the name of Vail, residing in Fredericksburg, Washington county, Ind., was killed on Tuesday by a brother-inlaw. The cause of the difficulty was a small amount of money owing by the former to the

Sale of a Government Vessel .- The United States storeship Southampton, one of the Japan squadron, was sold at public auction on Saturday last, at the Brooklyn Navy Yard, by William Dumont, for \$5,750 cash.

The Brookville (Ia.) American says that stock nogs large enough to fatten this fall were sold in Franklin county, a few days ago, at \$5 00 per hundred, and some farmers had refused \$2 50. Those farmers (remarks the Indianapolis Journal), like some that held on to their corn and wheat, after prices had nearly reached vation mark, for still higher prices, stand a first rate chance to lose considerably by being overgreedy. Such enormous prices won't be kept up, and those waiting for a rise will be more likely to feel the "hoist" themselves than see it in th

Orphans of Portsmouth.—The Richmond Dispatch of Saturday says: "Yesterday evening there came up in the Curtis Peck twentyeight children in charge of the Rev. Thos. Hume. They were all from Portsmouth. They were of all ages, from fifteen months to fifteen years. The number was diminished from several causes—some were claimed by their relatives, others were detained by the desire of friends or relatives who expected to be able to take charge of them, &c; but the chief reason was that the authorities of Portsmouth thought it best to divide the number, sending a part at a time. Upon the arrival of the children they were taken in charge by the committee and were immediately conveyed to the College They were accompanied by three Sisters of Charity, who showed the most tender regard for them. More than five hundred dresses were prepared for them by the ladies of Richmond. They will be made very comfortable."

THE "RESERVE LIST" OF THE NAVAL SER-VICE .- A writer in the National Intelligencer states that the President, after a mature and cars were under full headway, say some forty careful investigation of the subject, approved the action of the Naval Board on the retired list, without any alteration, and proceeds to remark:

In order to fill up the vacancies in the active lists to the number authorized by law, thirty-five commanders will be promoted to be captains seventy-four lieutenants will be promoted to be commanders, and one hundred and sixty masters in the line of promotion and passed midshipmen will be made lieutenants.

This is the first time a measure of the kind has been applied to the navy; but the army has been twice subjected to a more severe test under the plea of reduction—the first time after the peace of 1815, and again after the Mexican war, when, on the judgment of the President alone hundreds were dropped from the rolls, without the benefit to any of them of a liberal retired

list, as in the present case with the navy.

The liberality of the provision made by Con gress for the officers on the retired list, when compared with that of other nations is shown by the fact that a captain in our service by this law of furlough-pay receives nearly as much (\$1,250) and our 'leave pay' greatly more (\$2,500) than a retired flag-officer of the British navy, where the retired pay of a rear-admiral is only £300 sterling (1,500) per annum.

We extract the following forcible remarks from a startling article in a late New

At the present time, the city is full of young thieves, from 15 to 20 years of age, who professedly live by robbery and plunder. The prisons are all full; yet crime increases. We may build a prison annually—it will be immediately filled. Some new plan must be tried. Every boy should be compelled to acquire some trade or profession. The system of permitting boys to act as peddlers, at the time they should learn a trade, has done more than anything else towards filling our prisons. towards filling our prisons.

Derivation of "Filibusters."—The title of flibustiers is a mere corruption of the English flibustiers is a mere corruption of the English word freebooters—a German term, imported into England during the Low Country wars of Elizabeth's reign. It has been erroneously traced to the Dutch word flyboat; but the Jesuit traveler, Charlevoix, asserts that, in fact, this species of craft derves its title from being first used by the flibustiers, and not from its swiftness. This, however, is evidently a mistake, as Drayton and Hakuyt use the word; and it seems to be even earlier standing in the French language. The derivation from the English word freebooter is at once seen when the (s) in flibustier becomes lost in pronunciation.—G. W. Thornbury.

PROFITS OF WHEAT CULTURE.-The Alton Courier recently gave two or three instances of the successful and profitable culture of wheat. One instance was that of Col. W. B. Warren, of Jacksonville, whose crop of wheat netted him \$20 per acre, clear of all expenses, at present prices. Another case was that of Mr. Constant, of Sangamon county, where the nett profit was \$17 per acre. But these examples of good wheat culture are thrown in the shade by Mr. J. E. Arnold, of Shipman, Ill. He cultivated 73 acres this season, and realized therefrom a nett profit of \$320 84-or \$41 49 per acre. He says:

The land had been sometime in cultivation, and for the last few years rented out for corn. The wheat was sown the first of October in the standing corn, and was put in with a joint cultivator, and by going once in a row. Nothing else was done to the wheat or ground except what I have told you. Last year, I had twenty acres in May wheat, on the same farm, which cleared me about \$25 per acre, though I sold four hundred bushels at ninety-five cents in Al-

PREMIUMS IN THE WORLD'S FAIR TO AMER-ICA .- The Paris correspondent of the New York Tribune says that the following awards will probably be made to American articles on exhibition at the World's Fair. The prizes are not yet declared, but this is thought correct:

The juries of the exhibition have about finished their labors, and the following awards are reported to have been made to Americans: To McCormick's reaper, a gold medal; to Manny & Atkin's reaper, silver medal; to Singer's sewing machine, the highest premium on sewing ma chines; to Raymond's boiler-iron cutting ma chine, a silver medal (less than it deserved); to Ladd & Co.'s pianos, a silver medal; to Fowler & Preterre, dentists, a silver medal (the highest on dentistry); to Pitt's thrashing machine, a gold medal.

NEW TREATY WITH SIAM .- The following said to be communicated by telegraph from Washington, is important. Something of the same kind has also been published before:

Townsend Harris, Consul-General to Japan leaves this afternoon for New York. Since Mr. Harris has been in Washington he has been charged with making a new commercial treaty with the kingdom of Siam. It appears that the treaty with that power made by Mr. Roberts is of no value, in consequence of the absurd way in which the tonnage duties were levied and the royal monopolies. Mr. Harris has been in-structed to make such a treaty as will open that rich country to the enterprise of our merchants. And this is of peculiar importance, in view of the opening trade with Japan, for most of the products of Siam are peculiarly qualified to meet a good market in Japan. He will proceed overland to one of the Indian ports, where he is to be taken up by the United States steam frigate San Jacinto, which will convey him to Sangkok, in Siam, and after he has completed his negotiations will take him to Hong-Kong, from which place he will proceed to Japan in one of our men-of-war.

AN EXCITING INCIDENT ON THE CARS .- An event of a tragico comico nature occurred on board the cars on one of our northern railroads in this State, a few days since, which occasioned no small stir among the passengers, and particularly the female portion thereof, proverbially disposed as they are to sympathize with the sufferers of their own sex. A gentleman and lady (husband and wife) took passage at one of the stations for some place east, and were evidently well pleased when they found themselves comfortably seated and the cars well under way, whirling them rapidly along towards then place of destination.

The lady, however, had not been long seated before there were unmistakeale signs of uneasiness, and it could not long be concealed that she was seriously ill. Here was a dilemma; but the sex are always fruitful—in expedients, and

so was the lady in question.

To conceal the evidences of her illness, and if possible prevent annoyance to others, she put her head out of one of the windows, and in that position was soon safely delivered of a fine set of teeth, which sickness at the stomach had caused to be ejected from her mouth. As the or fifty miles an hour, the usual speed on our Ohio roads, they could not be stopped, and the lady and her teeth were of course separated; we hope not forever, but we have not learned whether she was able to recover them or not. The event, however, should serve as a warning to all whose teeth are liable to drop out, how they put their heads out of the windows when the cars are in motion.

VIOLATION OF THE QUARANTINE LAWS-ARREST OF THE CAPTAIN OF THE CRESCENT CITY.—The steamer Crescent City, Capt. John MacGowan, arrived here on the 13th instant, from New Orleans and Havana, and the health officers having heard that one or more cases of vellow fever had occurred on board during the passage from the former port, ordered the ves-

sel to be detained at quarantine for thirty days. On Saturday evening, however, the Crescent City left her anchorage at quarantine and came up to her wharf in this city, thus endangering, as is charged, the health of the city. Information of the fact reached the mayor and health commissioners early this morning, and Justice Osborne was requested to issue a warrant for the arrest of Captain MacGowan, which was done. In the meantime, the health commission. ers ordered that the Crescent City be immediately sent back to quarantine, and Captain ley, inspector of vessels, was deputised to carry this order into effect. Capt. MacGowan ap-peared at the mayor's office this noon, and gave ball in the sum of \$5,000 to answer the charge of violating the quarantine regulations, but said he knew not by whose orders the vessel was brought up, being himself absent at the time. The cause of violation is therefore as yet unexplained .- N. Y. Courier and Enquirer.

Mammoth Guns.—The English are casting shells for the Crimea three feet through and weighing over a ton each. Mr. Nasmyth, the great founder, is also casting guns which, with their carriages, will weigh fifty tons each. They require 225 pounds of powder for a charge, and will throw one of the immense balls of a ton weight four miles.

Piano-Fortes.

Piano-Fortes.

Purchasers are respectfully invited to call and examine my sclendid assertment of Prano-Fortes from the very best manufactories in this country.

My stock is by far the largest and most elegant in the West. I would especially call the attention of buyers to the celebrated instruments of Nunns & Clark. Their tone, touch, durability, and elegance of finish cannot be surpassed by any instrument in this country or Europe. They have maintained the highest position for the last twenty years, and are considered by the best judges superior to all others in point of elegance, tone, and durability.

I have also a large assortment of Piano-Fortes from the celebrated factories of Peters, Crags, & Co., A. H. Gale & Co., A. & J. Keogh, and other celebrated makers, of every style and size, and warranted equal if not superior to any instruments in this market.

My prices are as low as in any city in the Union, varying from \$185 to \$500. Every instrument is fully warranted to stand the Southern or any other climate.

The steamer White River, has been sold to Capt. Wiley, for \$2,000 cash. She will be put in first rate order, and then put in the Yazoo river trade.

It is stated in a Boston paper that there at present three thousand seven hundred Americans in Paris.

A paragraph in this morning's Journal headed "An Outrageous Case" was incorrect in several particulars. The suit of Mary Vollmer vs. Jacob Vollmer was pending in the chancery court for about a year, and seventy-five depositions were taken in it by counsel. It was a very doubtful case, and the plaintiff's counsel took it in hand with the written agreement that if she recovered anything he should have onehalf the alimony, and in case she received no alimony, then counsel would receive no fee. Defendant was entitled to a divorce after five years' separation and this would cause a cessation of the alimony. Under these circumstances the fee of counsel, considering the large amount of time and labor he had to bestow on the case and the risk of getting nothing in case no alimony was awarded by the court, was not exorbitant. The plaintiff's counsel had nothing to do with the \$250 settlement and the dismissal of the swit, and was not aware of it until it was consummated. The settlement was made at the earnest request of plaintiff, and she received the money, though there is no doubt that she was used as a mere tool by her brother, who also got the money. The depositions adduced before the chancery court led to the inference that plaintiff was very violent, and that defendant had at least some grounds for separation. This explanation we deem due to counsel in the case and to Vollmer. The criminality if there is any is limited to Felick, the brother of plain-

In justice to counsel for defendent, it is proper to state that, there had been a proposition between the parties several times, more than a year since, for a compromise, but the terms were not agreed upon, and defendant refused to compromise the matter, or enter into any agreement, until plaintiff had advised with her brothers, who were both present at the time of the execution of the compromise. The money was paid to her in their presence and three or four others, and she herself signed an order and acknowledged it, before Meng, the deputy clerk, to have the suit dismissed.

During the week ending on the 17th there were received at Buffalo by lake 39,080 bbls flour, 384,197 bushels wheat, 323,525 bushels corn, and 64,596 bushels oats.

ARRIVAL OF THE BALTIC.

ONE WEEK LATER FROM EUROPE.

NEW YORK, Sept. 20, M. The steamship Baltic, from Liverpool, with dates to Saturday, the 8th, arrived at her whabout 20 minutes past 11 o'clock last night.

Her advices are a week later.
She arrived out at 9 o'clock on the evening of Sept. 1, and left Liverpool at 9 o'clock on the morning of Sept. 8.

The papers received by the Baltic are extraordinarily destitute of news; in fact they do not contain hardly a single incident worth re-

porting.

Generals Simpson and Pellissier telegraph on the 3d that there is nothing new respecting the

siege of Sebastopol.
The Russians are again threatening an attack on the Tchernaya, and hence the allied army is kept continually on the alert, and both parties remain constantly under arms. The question is whether the Russians will attack the Tchernaya line or Balaklava via Baidur Valley.

Gen. Simpson says the Russians are actively engaged in bridging the harbor and fortifying the north side, and that they have received a re-

We have nothing from either the Black or Baltic seas. The Turkish Bulletin says the Russians have not the means to attack Kars, and that in a recent partial attack the Russians suffered consid-

erable loss.

There is no reliable information respecting the negotiation, but it is reported that the German Powers are preparing a new programme to confine the war to its ostensible object. It is rumored that England, instigated by France, is about to take measures of hostility

against Naples. The latest report is that Gortschakoff writes that his defences are damaged, but the report is doubted.

The Bank of England has advanced its rates to 4 per cent. From Great Britain there is not a word of political news of interest, if we except the ap-parent rumor that Great Britain intends to call Naples to account, and will make the recent in-sult of the Neapolitan police to an attache of the British embassy the ground work of a quar-

IN OUR RETAIL DEPARTMENT WILL'BE FOUND EVE-ry description of Soft Felt Hats for men, boys, and chil-dren, also Ladies' Velvet and Beaver Riding Hats. jy30 HAYES, CRAIG, & CO.

THE ONLY COMBINATION OF COMFORT AND ELE-gance in theway of Hats is that superb drab Beaver made by HAYES, CRAIG, & CO., and upon which they took the premium at the World's Fair. While it is the most elegant Dress Hat of the season, it is as light and airy as the gossa-mer. jy30j&b

A SLIGHT MISTAKE.—It is supposed by some that, as we took the premium over all others at the World's Fair, New York, on FINE HATS, we keep none but the finest quality on hand. This is a mistake. We are making a beautiful Silk Hat at \$4, and also one at \$3, which are just as "stylish" as the finer qualities.

CINCINNAȚI, Sept. 19, P. M.

The second annual convention of the Young Men's Christian Association of the United States and British Provinces, was held to-day at the Seventh Presbyterian church, on Broadway, commencing at 10 o'clock. The attenway, commencing at 10 o'clock. The attendance included nearly 100 delegates, representing societies in all parts of the Union as well as British Provinces British Provinces.

British Provinces.

The meeting was called to order by Wm. H.

Neff, of Cincinnati; Mr. J. Clement was appointed president pro tem.

The Committee on Permanent Officers reported W. C. Sargton, of Washington, as president,

and a number of vice presidents.

Very interesting statements were made of the condition of the various associations throughout the country. The convention will probably be in session two days.

MIDDLETON, Conn., Sept. 19. The Universalist Convention commenced its

session to-day. Lieut. Gov. Falis, of Conn., was elected moderator. The convention is the lergest of any demonstration ever assembled

WORCESTER, Mass., Sept. 19.

Large numbers of all parties are assembling in this city preparatory to the Fusion convention held to-morrow. There is a prospect of a hard fight and probably a split in the nomination

CHICAGO, Sept. 19.

We learn from Milwaukie that during the storm this morning the steamer Sebastopol, at 8 A. M., went ashore two miles south of the mouth of Milwaukie river. The latest accounts say she was on a bar, with waves breaking over her; men, women, and children were seen aboard. She would probably go to pieces unless the storm abated.

Second Dispatch -The mate and pilot of the steamer were drowned; all others saved. The cargo consisted of 800 tons mdz and 50 horses and will be a total loss. The steamer was bound from Buffalo to Chicago. There are seven sailing vessels ashore at different points on the lake

PROVIDENCE, Sept. 19. The store of Geo. Baker, a jeweller, was entered last night and robbed of watches, jewelry, &c., to the amount of \$6,000.

BALTIMORE, Sept. 19.

The Grand Lodge of I. O. O. F. of the U. States has rejected the amendment to the constitution offered last year to give larger juris-diction and increased representation in that body. An amendment to change from annual

to biennial sessions was rejected. \$300 have been appropriated to the relief of the brethern at Norfolk and Portsmouth.

The Grand Representatives are enjoying a complimentary festival to-night given by the brethern of Maryland.

KENTUCKY INSTITUTION FOR THE EDUCA TION OF THE BLIND .- The next session of this or Details of the Blanch.—The next session of this institution will commence on the first day of October, in the edifice recently erected for its accommodation. Freights and money matters unchanged. Eastern exchange The New York Journal of Commerce, of Friday evening,

The New York Journal of Commerce, of Friday evening, says:

There is a very cheerful buoyant feeling in the money market, and although full rates of interest are maintained, street discounts are easily obtained where the security is undoubted. There has been some drawing in of call loans by the banks, on account of special shipments, but most of the sums thus discurred have been easily replaced. We shall not probably have any considerable accumulation of specie here, even if produce should come forward so freely as to prevent the foreign export. There is a demand for shipment South and West, and also for Canada; to the latter point \$200,000 have just been shipped. If the receipt from California should not be diminished, there will be, however, enough and to spare for all these demands.—The channels of communication with the West are filled with produce coming to the sea board, and thus will add largely to the receipt of she transportusion companies.

The stock market is very strong; Erie especially, has been active as thigher rates.

Foreign exchange has not materially changed, but from present appearances, boyers will not come forward freely until rates decline.

New York, Sept. 19, P. M. Cotton dull, with a declining trndency—N. O. fair 11% 4, middling 10% c, upland 10% @10% c; prices nominal. To medical men the great advantage offered by the Retrospect is its embodying in a confined space all the cream of Medical periodicals, sparing them the labor of wading through many velumes filled with much trivial and uninteresting matter, which must be perused in order to reach what is really valuable, and supplying them with a key by the aid of which they may find precisely what they require in any of the eattered publications of the day. To families and private individuals it is scarcely less valuable than to the professional reader, since, although purely and in the highest degree scientific, its contents are yet presented in a style so simple and unaffected that they are comprehensible to any ordinary intellect. al8 j&b POLLARD, PRATHER, & SMITH. Chickering's Parlor Grand Pianos,

Manufactured by Chickering & Sons, late Jonas Chickering, Boston, Mass., and for sale by BRAINARD BROTHERS Jacob's Block, 74 Fourth street, near Main.

The Parlor Grand is the very perfection of all Grand Pianos, and is particularly adapted to the wants of professors, amateurs, and other wants of the professors amateurs, and other services who may object to the great size of a Full Grand.

The unique and beautiful style of this instrument and its perfect fitness for the parier are commendations that will not apply to the ordinary Grand Piano. For, while it combines the tone, power, action, and appearance of a Full Grand, it has the delicate touch of Chickering's Square Pianos, acknowledged by every one superior to any other, and, though of seven octave compass, is still smaller in size than the semi-Grand Piano of 6% octaves, as it occupies but little more space than a 7 octave Square Piano.

The peculiar and compact construction of the Parlor Grand, an invention of the late lamented Jonas Chickering, is a sure guarantee of its durability. And the complete success of this new and truly beautiful instrument fully sustains the reputation of its inventor and manufacturers.

We have already sold several of these instruments in this city, and, to meet the increased demand for them, have arranged for a constant supply.

To these superb Piano-Fortes we invite the attention of the Parlor Grand before purchasing. They are made only by Chickering & Sons, and can be had only of ourselves in this city, als jab Jacob's Block, Fourthst., near Main.
